The chapel is a part of St. James' Palace, the residence of the Prince of Wales, and occupies one corner of the main quadrangle.

The windows on the outer side open on they face the inner court of the palace. One end, the east or altar end, abuts on and Mrs. D. O. Mills and Miss Mills, Pall Mall; the other, where the Royal Gallery is, adjoins the royal apartments, having a door leading from them. Besides the royal pews with their crowned backs of gold, there are also four other pews, high-backed and upholstered in rich red cloth, two on each side of the broad center aisle, facing on the aisle in the manner of old-time churches. The royal choristers, attired in knickerbockers and long red coats, trimmed with gold, sons of England's proudest families, are crowded close in a double row beside the tiny altar. Before the palace, and, of course, before the chapel, pace constantly redcoated sentinels of the royal guard.

King May Be Present.

It is expected that the king and queen, by their presence, will honor the wedding of the American Ambassador's daughter to a favorite equerry-in-ordinary, though their majesties may be called away from London on matters of state or otherwise prevented from athowever, representatives will occupy the recently this may have been done royal pew. The two pews on the right attend officially; those on the left will be filled by the Reid family and the Dudleys, or, to call them by their family name, the Wards. This small assembly will fill the seating capacity of the chapel. It is not the custom to decorate the

churches, and but for two vases of roses on the altar the somber interior of the king's place of worship will not be changed. The ceremony will be performed by Rev. Edgar Sheppard, sub-dean of the chapel, with one of the English bishops and a rector from New York. There will be no bridesmaids, unless the bride-to-be changes her mind before the wedding day only the little daughters of Lord Dudley, the Ladies Honor and Morvyth Ward, will concerning bridesmaids are, it is stated,

Seeking a Town House.

Of course, the King's equerry, in attendance periodically upon King Edward, Falls Church. must have a town house as well as a country place. His present house in Chesterfield street, Mayfair, about two blocks from Dorchester House, is only large enough for a bachelor who dines only his men friends, and he and Miss Reid are now looking out for an adequate, well-located establishment.

With the departure of Lord and Lady Dudley, 7 Carlton Gardens will be vacant, already furnished and with a staff of servants in attendance. It is likely to her Falls Church home. that this will be the town residence selected by the newly married pair, at least for a season. It is delightfully located in one of those charming London backwaters, off a main thoroughfare. Carlton Gardens numbers, all told, but seven houses, all the homes of ambassadors or noblemen. It is quiet and secluded, where the public never come, except to gaze and wonder, yet but a step from thronged Pall Mall, with its rows of important clubs and its endless traffic of cabs and motor cars. The Dudley house is also in sight, across the gardens, of St. James' Palace. It is a place of some twenty rooms, having all the appointments of ballroom and spacious dining hall, &c., necessary for a man must entertain officially. Nevertheless, it is unpretentious in exterio appearance, resembling only a gentle-

man's private home.

Bridegroom Has Long Leave. At present the Hon. John Ward is, so to speak, off duty at Buckingham palace, the King having granted him a leave of absence that will allow him a long honeymoon. He is spending most of his time at Dorchester House, going over from Chesterfield street soon after breakfast, new home at East Falls Church. and shopping and paying calls with Miss Reid, then going with her to some friend's to dinner almost every evening. The week-ends the Reids spend at Wrest Park, where Mr. Ward takes his fiancee every Saturday morning in his motor. They are receiving a shower of invitations, of course-more than they can possibly accept.

It is not for him to select the nouse party. He receives a list of those ne proposes to ask to meet the royal guest, whether to stay in the house o merely to come to luncheon or dinner, or any other entertainment, indoor or outdoor, that the King has sanctioned. To one dinner to meet the King on such occasions, it is always understood that he local Church of England clergyman and his wife shall be invited.

To entertain the King is a very costly matter which no man of ordinary wealth can afford. The salary of an American Ambassador would not go far in defray-ng the extraordinary expenses entailed by such a visit. The wedding, taking place June 23, precedes the Ambassador's Fourth of July reception by eleven days. While Miss Reid will no longer be present to grace this annual occasion, no other difference will be noticed. This reunion of Amercans, high and low, great and small, will be held, as usual. Invitations will be exended to every American who expresses desire to be present, while they will be ouse, from all English folk and foreigners. The gardens of the embassy will be anopied, and the house decorated as for wedding.

Women Writing Letters.

"A Pennsylvania woman recently wrote her will that way, affixing her signature on the second page. At the reading of the will the lawyers read straight ahead from page 1 to page 2, which carried the signature, and that seemed to settle the whole business. There was writing on page 3 to be sure, but it appeared to be an unsigned codicil."

The trouble about paging letters is that there is no "average woman." A woman is as apt as not to start a letter on the fourth page, hop about like a flea, and wind up on the third, of course putting the page number on none of them. She may do that way about one letter and a totally different way about another. She woman seems to do a different way every time, and so does every other woman.
